How to use the chart

1. Find the first number in the blue column on the left.
2. Find the second number in the blue row at the top.
3. Follow both to the box where they meet. That is the sum.
4. The yellow boxes are the pairs that make **10**.

Count on

Start with the bigger number and count up. For **3 + 5**, start at 5 and say 6, 7, 8.

Doubles

Learn the doubles first: **4 + 4 = 8** and **6 + 6 = 12**. They help with the facts next to them.

Make 10

For **9 + 6**, think **9 + 1 + 5**. Fill up to 10 first, then add the rest.

Add zero

Adding zero changes nothing: **7 + 0 = 7**. Look for the zeros on the chart.

Addition Chart: Fill It In

Fill in the chart. Add the number on the left to the number at the top.
