Welcome, Parents & Teachers!

Mazes are a playful way to practice pencil control and thinking ahead. In this activity book your child helps 30 animals find their way to a favorite goal, such as a bee reaching a flower or a monkey reaching a banana. Every maze has exactly one path from START to FINISH.

How to use this book

- 1 Print at 100% (Actual size), not "Fit to page". This is the US Letter edition. A pencil, crayon or washable marker all work well.
- 2 Start at the animal (the START sign) and draw a path to the picture it is looking for (the FINISH sign).
- 3 Stay inside the corridors and never cross a wall. If a path ends, go back and try another way.
- 4 Three levels: Easy has wide corridors and short paths, Medium has more turns, and Hard has narrow corridors for experienced solvers. Start with Easy and move up when your child is ready.
- 5 Color the animals and the pictures when the maze is solved. They are all ready for crayons!
- 6 The Answer Key is on pages 34-38. Look together only if you are stuck.
