Little hands, big learning!

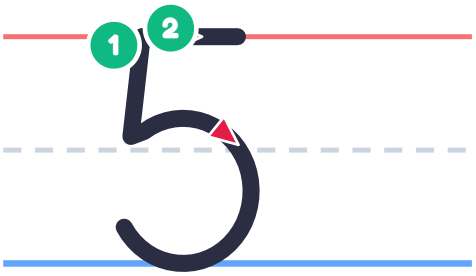

Name: _____

Welcome, grown-ups!

This book counts from 1 to 20 with Christmas pictures, one number at a time.

Each number from 1 to 10 has its own page: count and color the pictures, trace the number and the number word, and practice writing alone. Numbers 11 to 20 use ten-frames to show “ten and some more”. Counting games, a dot-to-dot star and a certificate finish the book.

How to read a number page

- The green number shows where to start, and which line comes first.
- The red arrow shows which way to go.
- Trace over the grey dots. Start at the green dot.
- Numbers sit on the blue line and reach up to the red line.

Tips for happy practice

1. **Print at 100%.** Choose “Actual size” on A4 or US Letter paper. A plain pencil and crayons are all you need.
2. **Touch and count.** Let your child touch each picture with a finger as they count. Say one number for each picture, never two.
3. **Say it as you trace.** Each number has a short saying, such as “line down, then a big circle”. Saying it out loud helps the movement stick.
4. **Little and often.** Five to ten happy minutes a day is plenty. One page is a great day, and you can count down to the holiday with it.
5. **Count real things.** Count the lights, gifts or cookies in your home. Real objects make numbers mean something.
