Numbers 1 to 10 with things to count

Shapes

Pages 40-45

6 shapes to outline and fill

Pictures

Pages 46-60

15 fun pictures to finish with dots

Certificate

Page 61

A prize for a great dabber!

Let's start dabbing!

Welcome, Parents & Teachers!

Dot markers are a joyful way for little hands to build fine motor skills, hand-eye coordination and early letter, number and shape recognition. In this book your child will dab 26 letters, 10 numbers, 6 shapes and 15 pictures, one big dot at a time.

How to use this book

- 1 Print on one side only, at 100% (Actual size), not "Fit to page". This is the A4 edition. Thicker paper or cardstock works best because marker ink can soak through.
- 2 Slide a spare sheet of paper or cardboard under the page to protect the table and the pages below.
- 3 Dab a dot inside every circle. Press straight down, count to one, then lift straight up. Please do not slide the marker.
- 4 Say the letter, number or shape out loud while you dab. Count the dots together.
- 5 No dot markers? Use round stickers, bingo daubers, a cotton swab dipped in paint, pom-poms or a fingertip.
- 6 Do one or two pages a day. Short, happy practice beats a long session.

About the circles

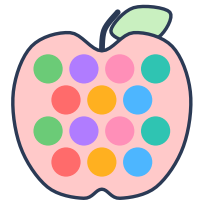

Each circle is about 14 mm (9/16 inch) wide, which suits markers with an 11 to 15 mm tip. If your marker is smaller, dab two or three times inside the circle. If it makes a bigger dot, use a round sticker, a cotton swab dipped in paint or a fingertip.
