Subtraction Chart (0 to 10)

A chart to help you find the answer to any subtraction fact within 10.

Name: _____ Date: _____

−	0	1	2	3	4	5	6	7	8	9	10
0	0										
1	1	0									
2	2	1	0								
3	3	2	1	0							
4	4	3	2	1	0						
5	5	4	3	2	1	0					
6	6	5	4	3	2	1	0				
7	7	6	5	4	3	2	1	0			
8	8	7	6	5	4	3	2	1	0		
9	9	8	7	6	5	4	3	2	1	0	
10	10	9	8	7	6	5	4	3	2	1	0

How to use the chart

1. Find the number you start with in the blue column on the left.
2. Find the number you take away in the blue row at the top.
3. Follow both to the box where they meet. That is the answer.
4. The yellow boxes are the facts that leave **0**.

Count back

For **8 − 3**, start at 8 and count back three: 7, 6, 5.

Think addition

For **9 − 4**, ask: 4 plus what makes 9? The answer is 5.

Take away all

Any number minus itself is zero: **6 − 6 = 0**. Look at the yellow boxes.

Take away zero

Taking away zero changes nothing: **5 − 0 = 5**.

Subtraction Chart: Fill It In

Fill in the chart. Start with the number on the left and take away the number at the top.

Name: _____ Date: _____

–	0	1	2	3	4	5	6	7	8	9	10
0											
1											
2											
3											
4											
5											
6											
7											
8											
9											
10											

Hint: the blue boxes without numbers cannot be used. You cannot take away more than you have.
